## around the world are hiring graduates with project management skills.

As a business student, you probably know how business works. What you may not know is that organizations are more efficient when they're working with project-based models. This is why everyone from Human Resource Managers to CEOs are recognizing the value of project management skills in the marketplace.

- ▶ *Project management skills are in demand across dozens of industries — from technology to health care, from entertainment to engineering.*
- ▶ *US\$62,000 is the average salary for project managers with fewer than three years experience.\**
- ▶ *The average posted salary for project managers is 21% higher than for all job postings nationwide.\*\**
- ▶ *US\$144,000 is the average salary for experienced project managers.\**
- ▶ *95% of executives identified project management as "the single most important skill for their current and future success."  
— Economist Intelligence Unit*
- ▶ *75% of executives say new recruits lack critical project management skills.*
- ▶ *30% of the project management workforce will retire in the next decade.*

***Learn project management today. Reap the benefits your entire career.***

Not much in the business world would get accomplished today if tasks weren't organized around projects. So it only follows that if you're a more efficient project manager, you'll be that much more valuable to prospective employers. With 1.2 million positions predicted to open up in 2012, this is the time to acquire the skills that can teach you the process of project management.

What's the smartest way to pick up these skills?

The answer is Project Management Institute (PMI). As the largest global association for project management, PMI will provide you with all the resources you need to enter, and thrive, in our new project-dominated world. But first you have to join.

For more information on student membership, go to:  
[PMI.org/Membership.aspx](http://PMI.org/Membership.aspx)

**PMI MEMBERS HAVE ALL THE RIGHT CONNECTIONS.**

- Network with others in your profession through more than 250 PMI chapters in more than 70 countries
- Gain exclusive access to our communities of practice
- Meet practitioners who share your professional interest
- Learn from your peers
- Collaborate to create new resources
- Share your knowledge
- PMI's Career Headquarters lets members connect with potential employers, post resumes, and get career coaching
- Participate in international exchange programs at accredited universities
- Receive financial aid through the PMI Educational Foundation

Good things happen when you get involved with PMI.
