“It may be that the most lasting legacy of Apollo was human: **an improved understanding of how to plan, coordinate and monitor the myriad technical activities that were the building blocks of Apollo.”**

—Roger D. Launius, former chief historian at NASA

In the Beginning

The first PMI leaders volunteered their time because they believed in the need to share project planning and scheduling practices. In fact, the organization was almost named The American Planning and Scheduling Society. But the founders realized it was bigger than that—it was about project management.

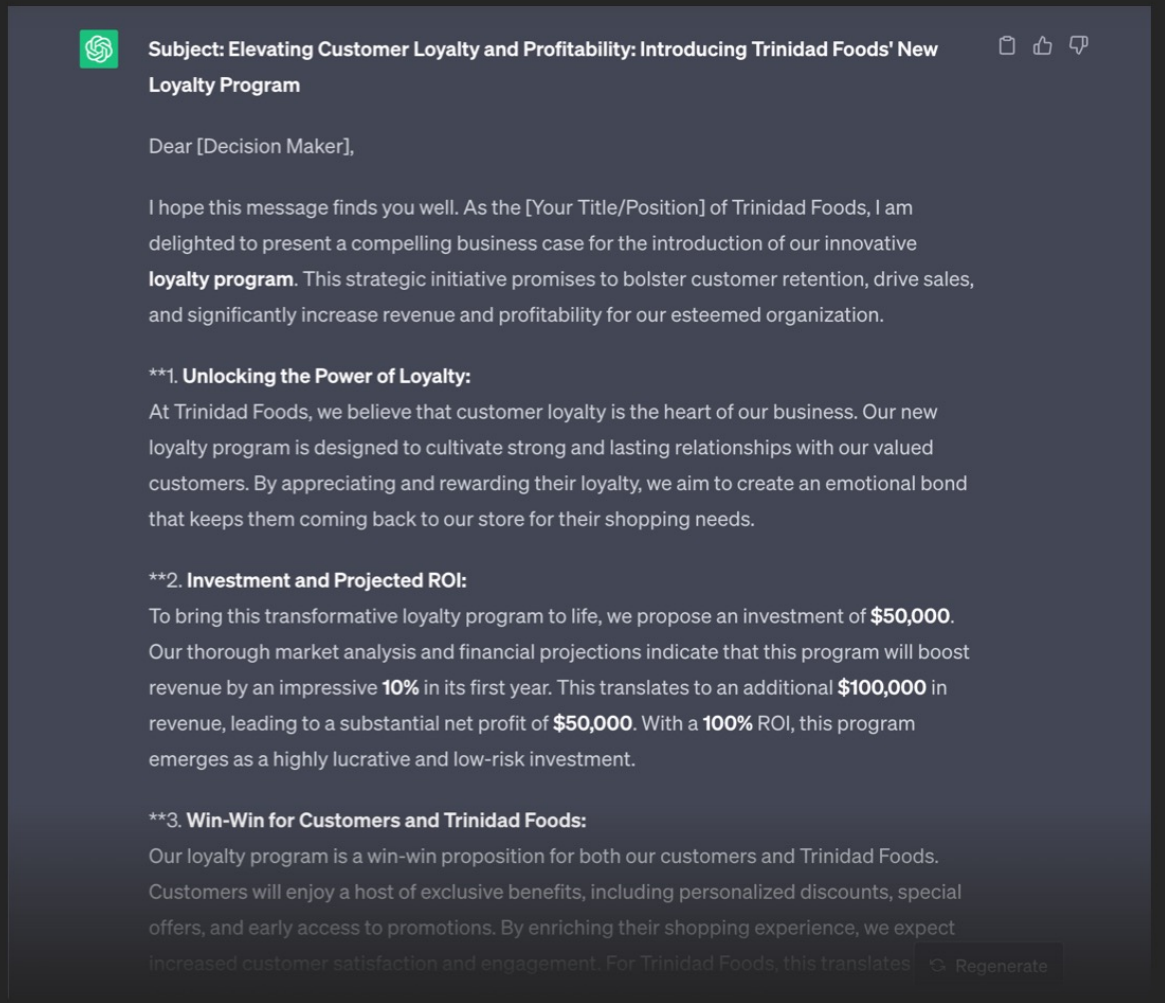
Generative AI for Project Managers

Create a Persuasive Business Case

PROMPT:

Trinidad Foods wants to introduce a new loyalty program to increase customer retention and sales. The program will cost $50K to implement but is projected to increase revenue by 10% in the first year. This means the store will generate an additional $100K in revenue, yielding a net profit of $50K. The ROI for the loyalty program investment is 100%.

Compose a business case to the decision maker that is clear and concise and uses a persuasive and personal tone. Highlight in bold any important information.



Subject: Elevating Customer Loyalty and Profitability: Introducing Trinidad Foods' New Loyalty Program

Dear [Decision Maker],

I hope this message finds you well. As the [Your Title/Position] of Trinidad Foods, I am delighted to present a compelling business case for the introduction of our innovative **loyalty program**. This strategic initiative promises to bolster customer retention, drive sales, and significantly increase revenue and profitability for our esteemed organization.

1. **Unlocking the Power of Loyalty:
At Trinidad Foods, we believe that customer loyalty is the heart of our business. Our new loyalty program is designed to cultivate strong and lasting relationships with our valued customers. By appreciating and rewarding their loyalty, we aim to create an emotional bond that keeps them coming back to our store for their shopping needs.

2. **Investment and Projected ROI:
To bring this transformative loyalty program to life, we propose an investment of **$50,000**. Our thorough market analysis and financial projections indicate that this program will boost revenue by an impressive **10%** in its first year. This translates to an additional **$100,000** in revenue, leading to a substantial net profit of **$50,000**. With a **100%** ROI, this program emerges as a highly lucrative and low-risk investment.

3. **Win-Win for Customers and Trinidad Foods:
Our loyalty program is a win-win proposition for both our customers and Trinidad Foods. Customers will enjoy a host of exclusive benefits, including personalized discounts, special offers, and early access to promotions. By enriching their shopping experience, we expect increased customer satisfaction and engagement. For Trinidad Foods, this translates

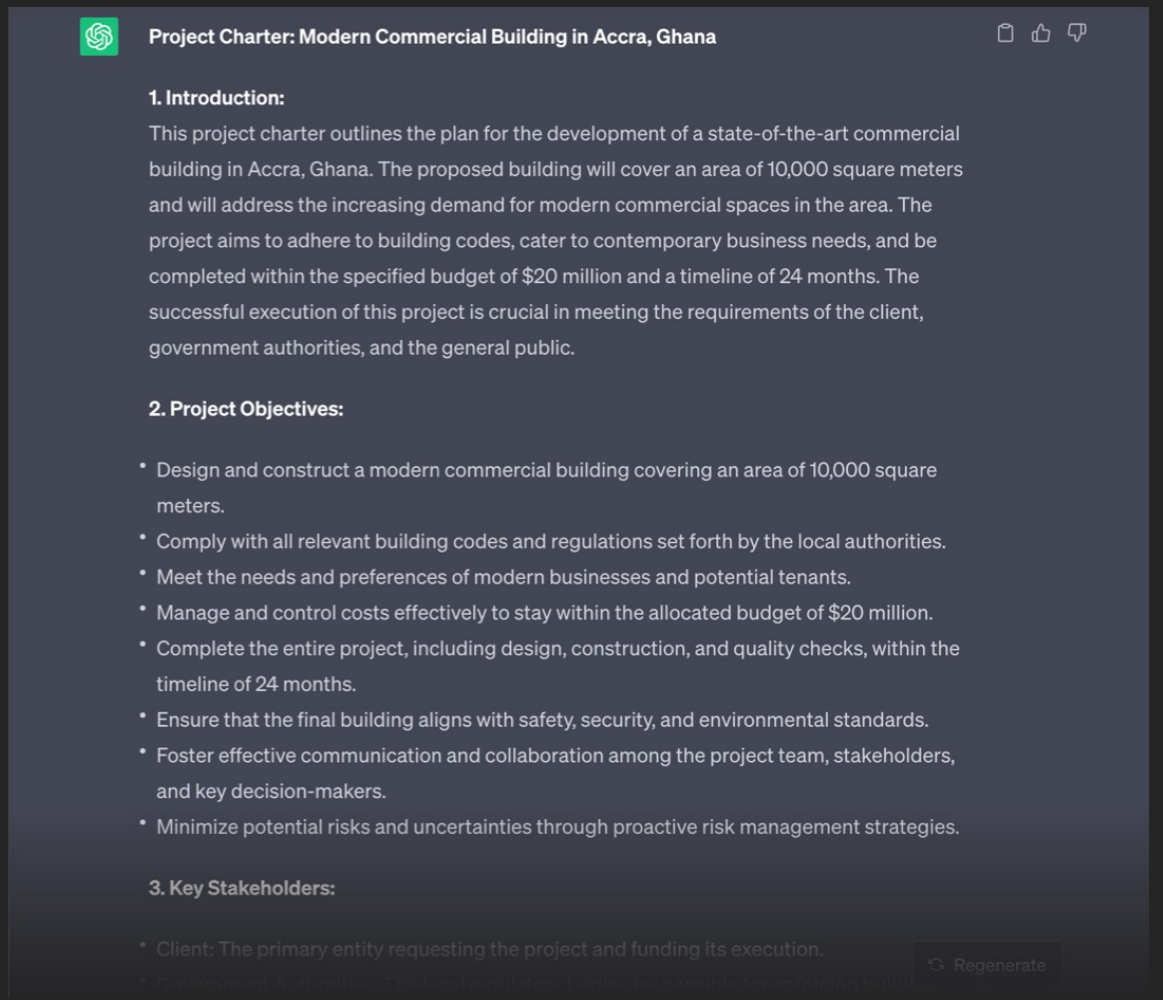
Create a Project Charter

PROMPT:

A 10,000 square meter commercial building in Accra, Ghana is proposed to meet the growing demand for commercial space. It must comply with building codes, meet modern business needs, and stay within a $20M budget and 24-month timeline. Include plans for design and construction, procurement, quality checks, and building code compliance. A project manager leads 20 team members. Key stakeholders include the client, government authorities, and the general public. Create a detailed project charter.



Project Charter: Modern Commercial Building in Accra, Ghana

1. Introduction:

This project charter outlines the plan for the development of a state-of-the-art commercial building in Accra, Ghana. The proposed building will cover an area of 10,000 square meters and will address the increasing demand for modern commercial spaces in the area. The project aims to adhere to building codes, cater to contemporary business needs, and be completed within the specified budget of $20 million and a timeline of 24 months. The successful execution of this project is crucial in meeting the requirements of the client, government authorities, and the general public.

2. Project Objectives:

- Design and construct a modern commercial building covering an area of 10,000 square meters.
- Comply with all relevant building codes and regulations set forth by the local authorities.
- Meet the needs and preferences of modern businesses and potential tenants.
- Manage and control costs effectively to stay within the allocated budget of $20 million.
- Complete the entire project, including design, construction, and quality checks, within the timeline of 24 months.
- Ensure that the final building aligns with safety, security, and environmental standards.
- Foster effective communication and collaboration among the project team, stakeholders, and key decision-makers.
- Minimize potential risks and uncertainties through proactive risk management strategies.

3. Key Stakeholders:

- Client: The primary entity requesting the project and funding its execution.

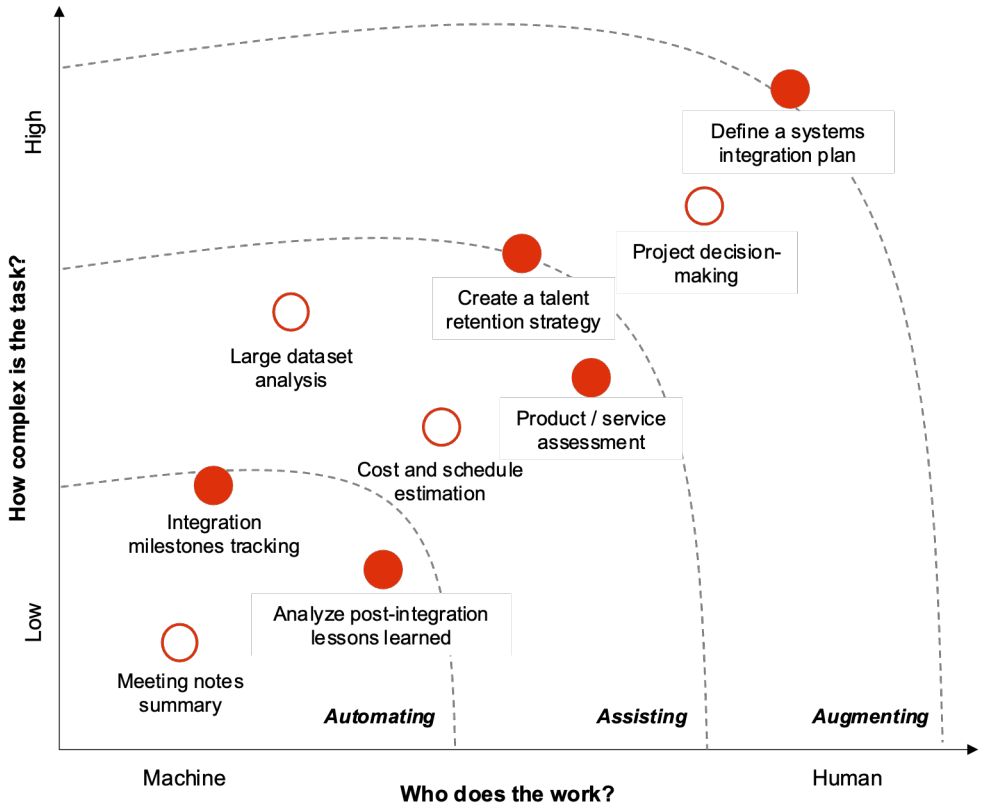
Strategies to Adopt GenAI in Project Work



Automation

GenAI can *automate* tasks that are low complexity and require little human intervention in their final output.

Assistance

At the *assisting* level, project professionals can leverage GenAI tools to complement their analysis, get first drafts for review by experts, and iteratively build the expected output for a particular task.

Augmentation

The most complex level is *augmenting*, where project professionals can enhance existing capabilities and learn new skills to perform more complex and strategic tasks.

Press Release

2nd August 2002

Launch of the Project Management Institute, Adelaide, South Australia Chapter

The Project Management Institute (PMI®) will gain a formal presence in South Australia with the official launch of the Adelaide, South Australia Chapter, positioning it to the forefront of the project management agenda in the State.

The launch, at the Hilton Hotel, Victoria Square, on Wednesday, 14th August from 6 – 7:30PM, will feature keynote addresses by:

- **Mr. Horden Wiltshire Director, Projects & Operations, m.Net Corporation: "*Management of Collaborative Projects*"**
- **Mr. Graham Oliver President, PMI Sydney: "*Cooperation and Collaboration of the PM Professional Organisations*"**

Tickets to the launch are $15, payable at the event.

Since 1969, PMI (http://www.pmi.org) has been dedicated to advancing the state-of-the-art in the management of projects. Headquartered in Pennsylvania, USA, PMI is the leading global non-profit professional association in the area of project management, with 90,000 members in 125 countries. Chapters across Australia have a combined membership in excess of 1,200.

The Adelaide Chapter will be the focal point for PMI members to access the Institute's resources and realise the benefits that a local chapter can bring.

The Chapter has been established in response to the level of interest expressed by project management practitioners, and sets out to achieve the following objectives:

- **To encourage and facilitate education, certification, and professionalism in project management;**
- **To provide a forum for discussion and examination of problems, solutions, applications, and ideas related to the management of projects and to foster communication between government, education and private sectors, regarding project management; and**
- **To disseminate within the primary area of operation of the Chapter information regarding developments in project management.**

Achievement of these objectives will be based upon a broad program of member events, further details of which will be announced at the launch.
